

Rivers Day Course Y5, Stibbington

Excellent, leader had complete control and great knowledge of subject. The children loved every minute and were able to tell me in detail about what they had learnt. This really concreted in terminology and vocabulary. It greatly extended understanding.

3-day Residential Y4, Stibbington

Fantastic trip which was well organised by friendly and informed staff. They went out of their way to make sure that every need was met. The children gained so much from it, including improving their independence and self help skills as well as their understanding of the different topics covered. Thank you so much!

Victorians Day Course Y2, Stibbington

Teacher was outstanding, welcoming and very well organised. The children loved her. Resources were very engaging and inspired the pupils. Session was brilliant-well planned and carried out. We loved it!

3-day Residential Y4, Stibbington

The most important thing learnt was independence and teamwork. Since returning to school our children are more cooperative with each other and have the confidence to think through tasks for themselves.

Written feedback from teachers

Science CPD Course

All of the course was useful and I hope to implement many ideas back at school.

Evacuation Day Course Y3, Stibbington

Each part of the CEES Day was well planned, well managed and enjoyable. All pupils were engaged, motivated and found each activity enjoyable. The course has made the children even more enthusiastic and inquisitive about the topic.

Badger's Day Out ,R, Stibbington

A high quality and enjoyable educational visit.
